

INFORMATION FOR UKRAINIAN CIVILIANS WITH HEARING LOSS

You have access to the following services paid for by the Latvian state and provided by the **Latvian Association of the Deaf (LNS)**:

Sign language interpreter services in contact with other natural and legal persons up to 120 hours per year.

You can apply for the service by contacting the LNS Rehabilitation Center -
mob.tel. / SMS / WhatsApp +371 26184246, e-mail: help@lns.lv

Social rehabilitation services (courses of Latvian sign language, acquisition and improvement of creative self-expression skills, consultations of a psychologist, help and support in solving social problems)

You can get additional information by contacting LNS social workers:
In **sign language** (WhatsApp, FaceTime, Telegram Messenger) +371 26869512
Voice call / SMS +371 26446614, e-mail: lns@lns.lv

Technical aids (hearing aids, watches with vibration and / or light signal, digital visual communication devices, signaling devices with vibration and / or light signal for monitoring children and for cared for persons and others), if the hearing loss in the better hearing ear is at least 55 dB, for children - at least 15 dB.

Contact the LNS secretary for more information – mob./SMS: +371 26278525;
e-mail: lns@lns.lv
Executive Director of the Surdocentre: mob../SMS: +371 29643789; +371 29196805; e-mail: surdocentrs@surdocentrs.lv

To receive services, a person submits to the LNS:

application and present a personal identification document with confirmation of the person's compliance with the status of a person referred to in Article 1 of the Law on Support of Civilians of Ukraine (for example, long-stay visa, residence permit, etc.);

the opinion of the attending physician in order to receive a technical aid (only to receive a technical aid);

audiogram (only to receive a technical aid).

Pakalpojuma piešķiršanas un saņemšanas kārtību nosaka Ministru kabineta 20.04.2021. noteikumi Nr.250 „Kārtība, kādā Latvijas Neredzīgo biedrība un Latvijas Nedzirdīgo savienība sniedz sociālās rehabilitācijas pakalpojumus un nodrošina tehniskos palīgīdzekļus – tiftotehniku un surdotehniku”.
